Analista Programador Universitario

Universidad Nacional de Jujuy   **2020 - Presente**

Ingeniería informática

Work Experience

Openix IT Solutions   **2021 - Presente**

Full-Stack Developer
  Angular & .NET

INFOCORP

My job was (and is) to support and develop functionalities for homebankings of international banks. Generally, each bank worked with a different version of the product, which meant that I had to work with different versions of the technologies as I rotated from project to project.

- Banco Agrario de Colombia
- BanReservas
- Santander
- COMAFI
- Republic Bank
- FICOHSA

The projects had both Web and Mobile. <u>I developed in both.</u>

Skills

Technologies: .NET(4.0+), Entity Framework, MVC, C#, Angular, AngularJS SQL Server, JavaScript, TypeScript, MONGODB.
Tools: SourceTree, GitBASH, Azure.
Soft-Skills: perseverancia, resiliencia y paciencia. Autodidacta.
